A 10x10 grid of 100 squares, each containing a number from 1 to 10. The numbers are arranged in a pattern that resembles a multiplication table, with the number 1 appearing in the first row and column, and the number 10 appearing in the last row and column.

A 10x10 grid of rectangles representing a word search puzzle. The rectangles are of various sizes and are arranged in a way that suggests a hidden message. The rectangles are black with white text inside.

A 12x12 grid of 144 squares, each containing a number from 1 to 12. The numbers are arranged in a pattern that resembles a multiplication table, with the number 7 appearing in the bottom row, column 7.

The image displays a 10x10 grid of 100 squares. Each square contains a unique pattern of black and white squares, representing a binary code for each letter of the alphabet. The patterns are arranged in rows and columns, with each row containing 10 squares and each column containing 10 squares. The patterns are designed such that each letter of the alphabet is represented by a unique combination of black and white squares.
