A visual representation of the number 120 using base ten blocks. It consists of one large square representing 100, one row of ten small squares representing 10, and one small square representing 1.

1

1

A visual representation of base ten blocks. On the left is a large square representing 100, composed of a 10x10 grid of smaller squares. In the middle is a horizontal row of 10 vertical rectangles, each representing 10. On the right is a single small square representing 1, followed by a horizontal row of 10 small squares, each representing 1.

A visual representation of the number 13 using base ten blocks. It consists of three groups of ten blocks (tens rods) and three individual blocks (ones units). The first group has 8 tens rods and 4 ones units. The second group has 4 tens rods. The third group has 1 ten rod.

[illegible]

A row of four base ten blocks: a large square representing 100, followed by two vertical rectangles representing 10 each, and a small square representing 1.

A collection of 100 small squares arranged in a grid-like pattern, representing a 100% area model.

A 4x10 grid of squares. The top row has 10 squares, all filled with black. The second row has 10 squares, with the first 4 filled, the 5th empty, the 6th filled, the 7th empty, the 8th filled, the 9th empty, and the 10th filled. The third row has 10 squares, with the first 4 filled, the 5th empty, the 6th filled, the 7th empty, the 8th filled, the 9th empty, and the 10th filled. The bottom row has 10 squares, with the first 4 filled, the 5th empty, the 6th filled, the 7th empty, the 8th filled, the 9th empty, and the 10th filled.

A 4x10 grid of rectangles. The rectangles are arranged in four rows and ten columns. The heights and widths of the rectangles vary, creating a complex pattern. The first row has rectangles of heights 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. The second row has rectangles of heights 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. The third row has rectangles of heights 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. The fourth row has rectangles of heights 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10.
