Figure 8.1. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner.

Figure 8.2. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner. **8**

Figure 8.3. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner.

Figure 8.4. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner.

Figure 8.5. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner.

Figure 8.6. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner. **9**

Figure 8.7. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner.

Figure 8.8. A schematic diagram of the experimental setup. A participant is seated at a desk, looking at a computer monitor. The monitor displays a grid of 16 small windows, each containing a different color patch. The participant is instructed to identify the color patch that is most similar to the reference color patch shown in the top-left corner.
