The diagram consists of four horizontal bars, each composed of a series of small squares. The first bar from the left contains 10 squares. The second bar contains 11 squares. The third bar contains 12 squares. The fourth bar contains 13 squares. Below these four bars, there is a space containing two small empty squares, followed by a single large empty square.

A set of 10 numbered cards from 1 to 10. Each card contains a series of squares arranged in a grid pattern. Card 1 has 1 square. Card 2 has 2 squares. Card 3 has 3 squares. Card 4 has 4 squares. Card 5 has 5 squares. Card 6 has 6 squares. Card 7 has 7 squares. Card 8 has 8 squares. Card 9 has 9 squares. Card 10 has 10 squares.

A horizontal row of seven empty rectangular boxes, each divided into four equal quadrants by a grid pattern. These boxes are intended for students to write their answers in.

A horizontal row of seven empty rectangular boxes, intended for students to draw tally marks in.

A row of ten rectangular cards, each containing a number from 1 to 10. Card 1 has one square, card 2 has two squares, card 3 has three squares, card 4 has four squares, card 5 has five squares, card 6 has six squares, card 7 has seven squares, card 8 has eight squares, card 9 has nine squares, and card 10 has ten squares.

A horizontal row of seven empty ten-frame grids. Each grid consists of a 2x5 grid of squares. The first six grids are evenly spaced, and the seventh grid is positioned further to the right.

A horizontal row of ten empty rectangular boxes, each divided into four equal quadrants by a grid pattern. These boxes are intended for students to write their answers in.

A horizontal sequence of binary digits (0s and 1s) followed by a blank square, then the number 9, and another blank square.

The image displays a grid of binary code patterns and numbers. The patterns are represented by horizontal rows of black squares on a white background. Some patterns are followed by a small square bracket containing a number, such as '33' or '45'. The patterns are arranged in a staggered, non-rectangular grid across the page.

A horizontal row of ten empty rectangular boxes, each divided into four smaller squares, intended for students to write their answers in.

A horizontal row of fraction bars. From left to right: a bar divided into 2 equal parts; a bar divided into 4 equal parts; a bar divided into 8 equal parts; and a bar divided into 16 equal parts. The first three bars have their top half shaded, representing the fractions 1/2, 1/4, and 1/8 respectively. The fourth bar has its top four parts shaded, representing 1/16.

A horizontal row of ten empty 2x5 grid boxes, each designed for writing a two-digit number. The boxes are arranged in two rows: the top row has five boxes, and the bottom row has five boxes.

The image displays a grid of binary code patterns and corresponding numerical values. The patterns are represented by horizontal rows of black squares on a white background. The numbers are displayed in a black rectangular box with a white border. The patterns and numbers are arranged in a grid format, with some empty space at the top and bottom.
