???? ?????????? ?????????????? ?????? ???????????????

The diagram consists of 12 rows of horizontal bars. Each bar is composed of small rectangular segments. The lengths of the bars vary significantly, with some being very long and others being very short. The bars are arranged in a grid-like pattern, with some rows having bars that are longer than others. The bars are arranged in a way that suggests a sequence or a pattern, but the exact meaning is not clear from the image alone.

The grid shows the following arrangement of blocks:

- Row 1: 10 blocks (2 groups of 5)
- Row 2: 10 blocks (2 groups of 5)
- Row 3: 10 blocks (2 groups of 5)
- Row 4: 10 blocks (2 groups of 5)
- Row 5: 10 blocks (2 groups of 5)
- Row 6: 10 blocks (2 groups of 5)
- Row 7: 10 blocks (2 groups of 5)
- Row 8: 10 blocks (2 groups of 5)
- Row 9: 10 blocks (2 groups of 5)
- Row 10: 10 blocks (2 groups of 5)

The total number of blocks is 100. The blocks are arranged in a 10x10 grid, with some blocks highlighted in light blue. The grid is used to represent the number 17 in a base-10 system.
