

Amritanilayam Stotras

???? ???? ??

The diagram illustrates the addition of two numbers using base ten blocks. The top row shows 1 ten rod and 4 one units. The bottom row shows 1 ten rod, 1 one unit, and 10 one units (representing 1 ten rod). The total is 2 tens rods and 5 one units.

The diagram illustrates three rows of rectangles. The top row contains one long rectangle, two short rectangles, and one very short rectangle. The middle row contains four medium rectangles. The bottom row contains eight small rectangles.

[illegible][illegible]

The diagram illustrates the construction of the expression $(1 + 2) * 3$ using blocks. The blocks are arranged in six rows, showing the step-by-step process of building the expression. The blocks are represented by rectangles of different sizes and colors (black, white, and grey). The rows are as follows:

- Row 1: 1 block, + sign, 2 blocks, * sign, 3 blocks.
- Row 2: 10 blocks, 6 blocks, 6 blocks.
- Row 3: 10 blocks, 12 blocks.
- Row 4: 10 blocks, 6 blocks, 6 blocks.
- Row 5: 10 blocks, 6 blocks, (10 blocks) 6 blocks.
- Row 6: 6 blocks, 2 blocks, 1 block.

The grid contains the following number of vertical lines per rectangle:

1	2	3	4	5	6
7	8	9	10	11	12
13	14	15	16	17	18
19	20	21	22	23	24
25	26	27	28	29	30
31	32	33	34	35	36

2 3

16x16

4

A 15x15 grid of 225 squares, each containing a number from 1 to 9. The numbers are arranged in a pattern that resembles a stylized '15' shape, with the number 1 appearing most frequently and the number 9 appearing least frequently.

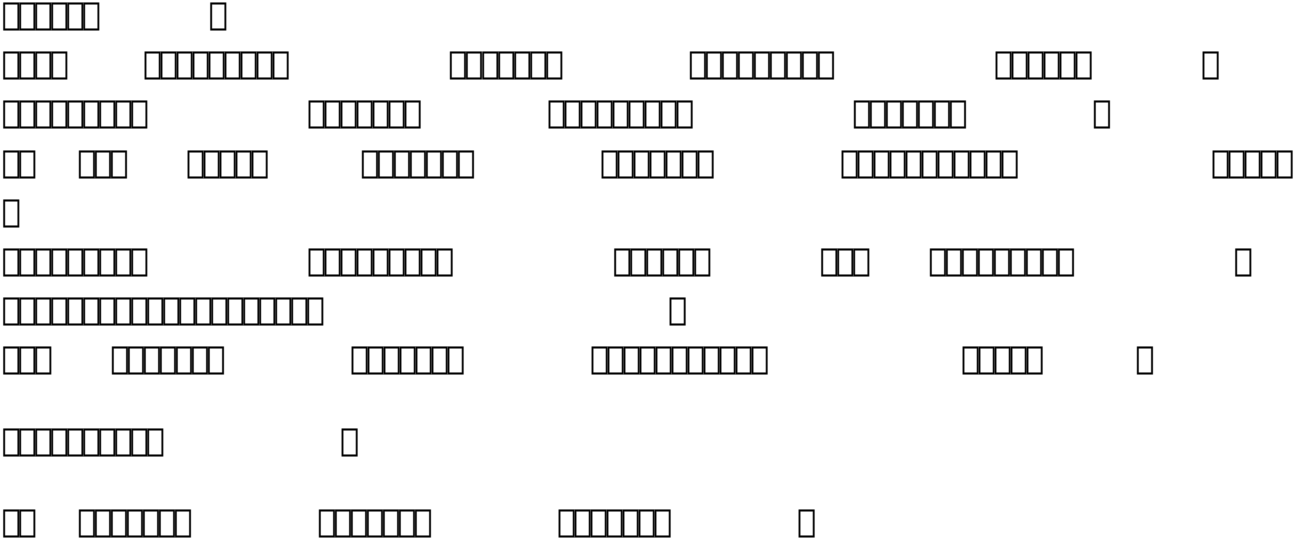

A 4x10 grid of rectangles. The rectangles are arranged in four rows and ten columns. The heights and widths of the rectangles vary, representing a sparse matrix. The rectangles are arranged in four rows and ten columns, with some cells being empty.
