

Amritanilayam Stotras

???????????????? (?????? ????????)

The diagram consists of 100 small squares arranged in a grid-like pattern. The squares are organized into 10 rows and 10 columns. The first row contains 10 squares, the second row contains 10 squares, and so on, up to the tenth row which also contains 10 squares. The squares are arranged in a way that suggests a sequence or a timeline, with the first square in the first row being the starting point and the last square in the tenth row being the ending point.
