The image shows a series of binary code patterns arranged in rows. Each pattern consists of a sequence of vertical bars of varying heights, representing binary digits (bits). The patterns are separated by short horizontal dashes. The first row contains four patterns: a short sequence of vertical bars, followed by a longer sequence starting with a short bar and ending with a long bar, followed by a sequence starting with a short bar and ending with a long bar, and finally a long sequence of vertical bars. The second row contains three patterns: a long sequence of vertical bars, followed by a short sequence of vertical bars, and finally a long sequence of vertical bars. The third row contains four patterns: a long sequence of vertical bars, followed by a short sequence of vertical bars, followed by a long sequence of vertical bars, and finally a short sequence of vertical bars. The fourth row contains three patterns: a short sequence of vertical bars, followed by a long sequence of vertical bars, and finally a short sequence of vertical bars. The fifth row contains two patterns: a long sequence of vertical bars and a short sequence of vertical bars. The sixth row contains three patterns: a short sequence of vertical bars, followed by a long sequence of vertical bars, and finally a short sequence of vertical bars. The seventh row contains two patterns: a long sequence of vertical bars and a short sequence of vertical bars. The eighth row contains three patterns: a short sequence of vertical bars, followed by a long sequence of vertical bars, and finally a short sequence of vertical bars. The ninth row contains two patterns: a long sequence of vertical bars and a short sequence of vertical bars. The tenth row contains three patterns: a short sequence of vertical bars, followed by a long sequence of vertical bars, and finally a short sequence of vertical bars.
